

DaleSauna Waves Installation

Tuesday, 16 June 2009

DaleSauna Makes Waves Luxurious DaleSauna recently played a key role of a £6m transformation at the new Whitley Bay Leisure Pool, now called Waves. This was in total part of a £64m investment in the town by the North Tyneside Council.

The installation included top specification for its luxurious spa with a sauna cabin, steam rooms and hydrotherapy baths. In detail these treatment rooms are: Spa pool | Saunarium | Steam room | Salt inhalation room | Tiled Heated Loungers | Relaxation beds | Sauna cabin | Foot spas | Bucket Shower | Hydrotherapy baths Gerard McCarthy, Sales Director: "This was one of the most comprehensive installations we have carried out recently. The North Tyneside Council were very receptive to our interior designs, and we believe we have transformed the Spa to give a very professional addition to their new state of the art leisure centre."
